## INTERNATIONAL ART FAIR

### Art in CASO / OSAKA SEPTEMBER 22 - 24 2006

It is a great honor for us to announce the opening of the 4th art fair, "ART in CASO / OSAKA 2006". Japanese contemporary artists have become highly regarded both in Japan and abroad and it is quite common for galleries and museums around the world to feature their works. This breaks down borders within the art world and has huge impact on the Japanese art market itself. Nowadays not only do Japanese galleries introduce foreign artists to Japan but they also believe that presenting Japanese artists to the world is an important mission. This year, "ART in CASO / OSAKA 2006" becomes bigger than ever in scale: 2 top galleries from Korea join with 19 leading Japanese galleries. Further more there are also

various interesting programs concerning the exhibitions on the site. We believe that this fair provides an opportunity to help the development of the Asian art market and at the same time builds a strong network. We hope that this fair offers great value to all our visitors and is able to show effectively the attraction and meaning of contemporary art.

We would like to express our sincerest thanks to everyone involved in making this fair possible.

Committee  
ART in CASO / OSAKA 2006
